¹ For each fund with at least a three-year history, Morningstar calculates a Morningstar Rating based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a fund's monthly performance (including the effects of sales charges, loads, and redemption fees), placing more emphasis on downward variations and rewarding consistent performance. The top 10% of funds in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars and the bottom 10% receive 1 star. The Overall Morningstar Rating for a fund is derived from a weighted average of the performance figures associated with its three-, five- and 10-year (if applicable) Morningstar Rating metrics.

Overall rating out of 689 Global Flexible Bond funds as of 31-07-25.

² Returns less than one year are not annualised. Performance does not take account of the commissions and costs incurred on the issue and redemption of shares. Future performance is subject to taxation which depends on the personal situation of each investor, and which may change in the future. Complete information on risks can be found in the prospectus.

Payden Absolute Return Bond Fund is a sub-fund of Payden Global Funds plc, an open-ended investment company with variable capital incorporated under Ireland law and is authorised by FINMA for offering to non-qualified investors. The prospectus for Switzerland, the key investor information documents ("KIID"), the articles, the semi-annual and annual reports and other information can be obtained free of charge from the fund's representative and paying agent in Switzerland: Reyl & Cie SA., 4, rue de Rhône, 1204 Geneva, Switzerland.

The Fund is actively managed with reference to the ICE BofA SOFR Overnight Rate Index (the "Index") by virtue of the fact that it seeks to outperform the Index. The investment manager has discretion over the composition of the Fund. Whilst the investment manager does not employ a defined strategy to align with a benchmark during periods of volatility, it will take account of market environment and perceived risks at any given time and will employ its investment discretion as described in the investment policy accordingly.
